List of Figures

Figure 1: Nano Banana 2. 2026. *Prompts: “Create a 2d pixelated texture for the side of grassy dirt tile for a forest”, “can you make it lower quality, it's supposed to be simplistic”*.

Figure 2: Barker, D. 2026. *Grass texture for the forest level using Nano Banana’s as a base*.

Figure 3: Barker, D. 2026. *Grass texture for the bridge and burninghearthrun levels using Nano Banana’s as a base*.

Figure 4: Barker, D. 2026. *Dirt texture using Nano Banana’s grass as a base*.

Figure 5: Nano Banana 2. 2026. *Prompts: “now can you generate a texture for fire?”*.

Figure 6: Barker, D. 2026. *Fire texture using Nano Banana’s as a base*.

Figure 7: Nano Banana 2. 2026. *Prompts: “can you generate a stone texture?”*.

Figure 8: Barker, D. 2026. *Stone texture using Nano Banana’s as a base*.

Figure 9: Nano Banana 2. 2026. *Prompts: “now can you generate a paved tile texture for a medieval fantasy village”*.

Figure 10: Barker, D. 2026. *Market tile texture using Nano Banana’s as a base*.

Figure 11: Nano Banana 2. 2026. *Prompts: “now can you generate a wood texture for a bridge”*.

Figure 12: Barker, D. 2026. *Wood texture for a bridge using Nano Banana’s as a base*.

Figure 13: Nano Banana 2. 2026. *Prompts: “now can you do wood for a tree”, “can you do it from the side not the top”, “can you do the bark of a tree texture”*.

Figure 14: Barker, D. 2026. *Wood texture for a tree using Nano Banana’s as a base*.

Figure 15: Nano Banana 2. 2026. *Prompts: “can you generate a sprite for a medieval fantasy hero character”, “can you do a side profile for the hero”*.

Figure 16: Barker, D. 2026. *The hero of the game using Nano Banana’s as a base*.

Figure 17: Nano Banana 2. 2026. *Prompts: “now can you do a fantasy devil enemy”*.

Figure 18: Barker, D. 2026. *The enemy of the game using Nano Banana’s as a base*.

Figure 19: Nano Banana 2. 2026. *Prompts: “now can you do a peasant npc”, “can you do a side profile for the peasant npc”*.

Figure 20: Barker, D. 2026. *The peasant/player of the game using Nano Banana’s as a base*.

Figure 21: Nano Banana 2. 2026. *Prompts: “can you do the front of the peasant's house”, “can you give it a roof as well”*.

Figure 22: Barker, D. 2026. *The player’s house for the game using Nano Banana’s as a base*.

Figure 23: Nano Banana 2. 2026. *Prompts: "now can you also generate it partially destroyed and on fire"*.

Figure 24: Barker, D. 2026. *The player's house destroyed for the game using Nano Banana's as a base*.

AI Chat Tools Used

Anthropic's Sonnet 4.6 was used for coming up with the initial idea for the game, which I then built off of and made some of my own changes. The conversation happened on the 25th of March and can be found at: https://claude.ai/share/4d64f076-9c01-4af4-bf63-5520ccd8a2c4

AI Used for Code Generation

The AI that I used for generating code was Anysphere's Cursor which was recommended by the brief for the game jam. The AI was used on the 25th and 26th of March.

AI Used for Image Generation

Although I initially planned to use ChatGPT/DALL-E, it ran out of prompts after 5 images, and I didn't like any of the images it made so they weren't used. In the end I used Google's Gemini/Nano Banana 2 model. I then took these into photoshop and modified them to be usable in the game by getting rid of backgrounds, making sprites the correct size for the game, making the sprites used in tiles tileable and sometimes getting rid of objects that didn't make much sense or flipping orientation. The conversation happened on the 26th of March and can be found at: https://gemini.google.com/share/1c71cef47ba1

Figure 1: Nano Banana 2. *Prompts: "Create a 2d pixelated texture for the side of grassy dirt tile for a forest", "can you make it lower quality, it's supposed to be simplistic"* (Google, 2026)

Figure 2: an image of a grass texture for the forest level using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 32x32 pixels, changed grass colour, and made it tileable horizontally.

Figure 3: an image of a grass texture for the bridge and burninghearthrun levels using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 32x32 pixels, and made it tileable horizontally.

Figure 4: an image of a dirt texture using Nano Banana's grass as a base (Barker, 2026).

Changes Made: Got rid of background, made it 32x32 pixels, got rid of grass, made it tileable horizontally and vertically.

Figure 5: Nano Banana 2. *Prompts: "now can you generate a texture for fire?"* (Google, 2026)

Figure 6: an image of a fire texture using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 24x24 pixels, got rid of the blue pixels that look like water.

Figure 7: Nano Banana 2: *Prompts: "can you generate a stone texture?"* (Google, 2026)

Figure 8: an image of a stone texture using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 32x32 pixels, got rid of grass, made it tileable horizontally and vertically.

Figure 9: Nano Banana 2. *Prompts: "now can you generate a paved tile texture for a medieval fantasy village"* (Google, 2026)

Figure 10: an image of a market tile texture using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 32x32 pixels, got rid of grass, made it tileable horizontally and vertically.

Figure 11: Nano Banana 2. *Prompts: "now can you generate a wood texture for a bridge"* (Google, 2026)

Figure 12: an image of a wood texture for a bridge using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 32x32 pixels, and made it tileable horizontally.

Figure 13: Nano Banana 2. *Prompts: "now can you do wood for a tree", "can you do it from the side not the top", "can you do the bark of a tree texture"* (Google, 2026)

Figure 14: an image of a wood texture for a tree using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 32x32 pixels, got rid of grass, made it tileable horizontally and vertically.

Figure 15: Nano Banana 2. *Prompts: "can you generate a sprite for a medieval fantasy hero character", "can you do a side profile for the hero"* (Google, 2026)

Figure 16: an image of the hero of the game using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 18x30 pixels.

Figure 17: Nano Banana 2. *Prompts: "now can you do a fantasy devil enemy"* (Google, 2026)

Figure 18: an image of the enemy of the game using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 18x30 pixels, got rid of the fire above the head.

Figure 19: Nano Banana 2. *Prompts: “now can you do a peasant npc”, “can you do a side profile for the peasant npc”* (Google, 2026)

Figure 20: an image of the peasant/player of the game using Nano Banana’s as a base (Barker, 2026).

Changes Made: Got rid of background, made id 20x28 pixels, flipped the character horizontally.

Figure 21: Nano Banana 2. *Prompts: “can you do the front of the peasant's house”, “can you give it a roof as well”* (Google, 2026)

Figure 22: an image of the player’s house for the game using Nano Banana’s as a base (Barker, 2026).

Changes Made: Got rid of background, made it 96x96 pixels, got rid of the staff and basket with carrot because the player is holding them.

Figure 23: Nano Banana 2. *Prompts: "now can you also generate it partially destroyed and on fire"* (Google, 2026)

Figure 24: an image of the player's house destroyed for the game using Nano Banana's as a base (Barker, 2026).

Changes Made: Got rid of background, made it 96x96 pixels, got rid of the staff and basket with carrot because the player is holding them.

Disclosure of AI Usage in my Assessment

High Concept Document Section:

- AI Used: Sonnet (Version 4.6)
    - Purpose of Use: To help come up with some base ideas that I could work off of for the game.
    - Date(s) Used: 25 March 2026
    - Link to Chat: https://claude.ai/share/4d64f076-9c01-4af4-bf63-5520ccd8a2c4

Plan, Readme, Requirements, Refinements Changes Sections:

- AI Used: Cursor
    - Purpose of Use: To generate and maintain the files as outlined and required by the assignment.
    - Date(s) Used: 25 March 2026 and 26 March 2026
    - Link to Chat: See cursor_game_development_plan_for_just_getting_home.md which can be found on GitHub at: https://github.com/DavidBarker05/Just-Getting-Home/blob/main/CursorConversation/cursor_game_development_plan_for_just_getting_home.md.

Game Code Section:

- AI Used: Cursor
    - Purpose of Use: To generate code as outlined and required by the assignment.
    - Date(s) Used: 25 March 2026 and 26 March 2026
    - Link to Chat: See cursor_game_development_plan_for_just_getting_home.md which can be found on GitHub at: https://github.com/DavidBarker05/Just-Getting-Home/blob/main/CursorConversation/cursor_game_development_plan_for_just_getting_home.md.

Game Art Section:

- AI Used: Nano Banana (Version 2)
    - Purpose of Use: To generate images to be used in the game as outlined and required by the assignment.
    - Date(s) Used: 26 March 2026
    - Link to Chat: https://gemini.google.com/share/1c71cef47ba1
